SUMMER KNOCKOUT COMPETITION RULES

Draws:

The initial matches for each knockout competition will be drawn, thereafter the subsequent rounds will cascade down to a final to be completed by 30th September 2021. The competition commences on 1st April 2021, the completion dates for each round will be spaced evenly throughout the period up to the competition completion date on 30th September 2021.

The initial draw and cascade matrix for each knockout competition including the required completion date for each round, will be available on the MHGC web site/members hub from 1st April 2021.

Individual Knockout Competitions:

Individual knockout competitions will be played in a match play format over 18 holes with each hole being won by the player achieving the lowest net score. If the players net scores are equal, then the hole will be halved. The match continues until one player achieves an unassailable position i.e. is more holes up on the other player than the number of holes remaining to be played in the match. In the event of a match being halved after 18 holes then play will continue from the 1st until either player wins a hole (sudden death).

Pairs Knockout Competitions:

Pairs knockout competitions will be played teams in a greensome format with each hole being won by the team achieving the lowest net score. If the team's net scores are equal, then the hole will be halved. The match continues until one team achieves an unassailable position i.e. is more holes up on the other team than the number of holes remaining to be played in the match. In the event of a match being halved after 18 holes then play will continue from the 1st until either team wins a hole (sudden death).

Both team members tee off, one tee shot is chosen by the team and play continues using that ball with each team member taking alternate shots until the ball is holed. Each hole is won by the team achieving the lowest net score. If the net scores for any hole are equal for both teams then the hole is halved. The match continues until one team achieves an unassailable position i.e. is more holes up on the other team than the number of holes remaining to be played in the match. In the event of a match being halved after 18 holes then play will continue from the 1st until either team wins a hole (sudden death).
